Living Language-George R. Keith 1997
Covering the skills and knowledge required by A Level English Language syllabuses, this is an essentially practical text. It provides information, ideas and background theory which students should be able to access effectively and enjoy via activities and investigations. This text aims to enable students to read and listen in a linguistically informed manner, and to develop their own writing and speaking abilities. With emphasis on the student's own experience of language, the many group and individual activities lift the theory from the page and stimulate integrated productive and analytical work. The activities suggest ways of applying linguistic knowledge to texts and data, and are designed to prepare students for examination papers and to generate quality course work. Both literary and non-literary texts are featured.

Edexcel A2 English Language Student Book-Danuta Reah 2009

GCE AS and A Level Subject Content for English Language and Literature- 2014

Teaching English Language 16 - 19-Martin Illingworth 2012-12-07
This uniquely structured and practical resource book will empower teachers new to the study of language to feel confident about leading a stimulating and

successful course. Covering all areas of linguistic investigation across the different exam board specifications, this accessible text rooted in theoretical perspectives is underpinned by years of teaching experience and is rich with practical classroom activities. Each of the sections included in this book is either an examined area of study from the AS and A2 specifications or deals with the supporting frameworks of linguistic analysis, and is helpfully split into two parts: An overview of how to teach that area of study, and a discussion of the appropriate level of knowledge that students will require; Individual lesson ideas and plans, with resources provided throughout. Teaching English Language 16 - 19 opens with a brief introductory section that outlines the reasoning behind taking an investigative approach to the study of language. A sequence of suggested lesson ideas for the opening lessons of a typical course, amounting to some eight lessons with homework research and discussion preparation tasks, is also included. Students on initial teacher education courses, as well as practising teachers undertaking the teaching of language for the first time, will welcome this highly practical resource.

English Language Skills Training. Theory and Practice-Eddie Fisher 2014-01-13
Research Paper (postgraduate) from the year 2013 in the subject English Language and Literature Studies - Linguistics, grade: N/A, Universidad de Oriente in Santiago de Cuba (Faculty of Humanities), course: English Language, language: English, abstract: The ability to teach foreign languages effectively has become an increasingly important skill to develop and improve the language proficiency of students. Teachers need to develop and apply proactive and positive attitudes to foster new levels of foreign language learning within their students. Teaching, on its own, is not a panacea for success. This paper investigates how teachers at the Universidad de Oriente (UO) in Santiago de Cuba search for and apply innovative ways of teaching foreign languages to their students within current boundaries. The results from this research show that there is a positive relationship between the level of proficiency in a foreign language and the methods and approaches teachers apply to keep students motivated and interested in the subject matter. The literature review from this study provided supportive evidence which was strengthened with insights from face to face interviews and a focus group meeting. The

outcomes confirmed that students, who are exposed regularly to practical and diverse teaching methods, are more likely to exceed the expected foreign language proficiency levels set by the University's quality standards.

Working with Texts-Maggie Bowring
2005-08-09 Working with Texts: A Core Book for Language Analysis provides a basic foundation for understanding aspects of English language crucial in the analysis of text. The major topics covered include writing, the sound system of spoken English, words, sentence grammar and discourse construction. The wide range of texts examined include literary extracts from prose fiction (Jeanette Winterson, Anne Tyler), poetry (D. H. Lawrence, Margaret Atwood), drama (John Godber) and graphic novels (Neil Gaiman), but also a huge diversity of texts from contemporary media: newspaper articles, advertisements (Gap, Kelloggs), political speeches and original authentic materials (children's writing, signs, everyday conversation). Student-friendly features include: * Activities showing how language works in texts and their contexts * Commentaries which follow each activity, highlighting main points of language use * Wide coverage of different genres: literary texts, notes, memos, signs, advertisements, leaflets, speeches, conversation * Suggestions for further reading and additional self-study exercises * Key words highlighted and a full index of terms Ideal for introductory courses to English Language and Literature and Linguistics. Also of interest to students of media and communication studies.

Separate But Equal?-Tony Edwards 2005-08-19
This book looks in detail at the strong contrasts in the provision traditionally made for 'academically' and 'vocationally' minded students, and looks at differences and similarities in practice. The chapters report evidence of how students on both sides think they have been taught. They also report on how those students prefer to learn, how their teachers define the kinds of learning appropriate for particular qualifications and how the organisation of learning for 'different but equal' qualifications was observed in forty schools and colleges. The book's main focus is on the objectives and processes of learning at a stage which is certainly being transformed, but which is still powerfully shaped by myths about the sixth form and education of 'leaders'.

Teaching Secondary English-Mark Pike
2003-10-30 'What the book does extremely well is do describe the way things are in terms of the requirements of the Framework for Teaching English, the curriculum and the new specifications - and for this reason it is likely to be most useful to those contemplating English teaching in the maintained sector from outside - returnees, aspiring NQTs or those in the independent sector' - Times Educational Supplement 'Instead of taking us yet again on a tour through the four modalities of English, this book's tri-partite structure takes a refreshingly different approach by offering thought-provoking argument grounded in classroom practicality' - Nick McGuinn, University of York Students' comments on Teaching Secondary English: 'The book is written in clear, digestible terms, offering many practical ideas for teaching the key skills and the wide range of material encountered in the English classroom. .. It is the kind of book which can be dipped into, which is particularly useful for people who spend most of their time planning lessons!' 'Teaching Secondary English is a must for student teachers and NQTs. It is a clear, comprehensive and practical guidebook dealing not solely with theory and pedagogy, but with the very real issues facing new teachers today' 'It is clear that Teaching Secondary English, unlike so many textbooks on the subject, is written by someone with recent classroom experience and this helps the reader to trust and respect the advice it purports. I certainly feel it is grounded in practicalities not "pie in the sky" theory that will not work in most 'real' classrooms!' This book enables English teachers to implement change and rise to new challenges, while remaining true to an ethically and socially just position which provides the rationale for their vocation. The author describes and evaluates recent changes to English teaching brought about by initiatives such as the Literacy Strategy, the new 'A' levels and the requirement to focus on spiritual, moral, social and cultural development. Examples of innovative teaching and learning strategies are provided throughout. The author helps teachers to foster keen readers, writers and communicators. He shows how they can enable their students to acquire skills and knowledge, as well as to recognize the value of aesthetic experience, emotional literacy and spiritual and moral response to literature in their own lives and in their communities. This book is essential reading for PGCE students as well as

2nd edition' has been devised to meet all the new specifications for AS and A level English Language & Literature. The popular previous edition has been comprehensively revised. 'Living Language & Literature 2nd edition' provides essential information on both linguistic theory and literary issues to promote the integrated study of language and literature. Through supported activities and investigations students will explore how and why writers create a particular style or voice in their texts and in doing this they will actively develop their skills in reading, listening and responding to an extensive range of text genres and data. Building on students' own experience of language and literature, this text offers a wealth of shared, group and individual activities to lift the theory from the page and stimulate critical, creative and analytical work. In preparation for examinations and for coursework, students will learn how to apply their linguistic knowledge of literary, non-literary and multi-modal texts to produce imaginative, re-creative, comparative and analytical writing with related commentaries. On-line resources which offer exam and coursework exemplars, model answers, interactive activities and extended support for each unit in 'Living Language & Literature 2nd edition' can be found at www.alevel-english.co.uk.
