Modern variations—casual friends, close friends, best friends—are described, along with the growing phenomena of virtual friendships and cyber socialization in the Internet age. Inspired in part by Bertrand Russell's The Conquest of Happiness, the authors propose that conquering unhappiness is key to achieving the self-satisfaction Russell called zest and Aristotle called eudaimonia or thriving by our own efforts.

Ace-Angela Chen 2020-09-15 An engaging exploration of what it means to be asexual in a world that's obsessed with sexual attraction, and what the ace perspective can teach all of us about desire and identity. What exactly is sexual attraction and what is it like to go through life not experiencing it? What does asexuality reveal about gender roles, about romance and consent, and the pressures of society? This accessible examination of asexuality shows that the issues that aces face—confusion around sexual activity, the intersection of sexuality and identity, navigating different needs in relationships—are the same conflicts that nearly all of us will experience. Through a blend of reporting, cultural criticism, and memoir, Ace addresses the misconceptions around the “A” of LGBTQIA and invites everyone to rethink pleasure and intimacy. Journalist Angela Chen creates her path to understanding her own asexuality with the perspectives of a diverse group of asexual people. Vulnerable and honest, these stories include a woman who had blood tests done because she was convinced that “not wanting sex” was a sign of serious illness, and a man who grew up in a religious household and did everything “right,” only to realize after marriage that his experience of sexuality had never been the same as that of others. Disabled aces, aces of color, gender-nonconforming aces, and aces who both do and don't want romantic relationships all share their experiences navigating a society in which a lack of sexual attraction is considered abnormal. Chen's careful cultural analysis explores how societal norms limit understanding of sex and relationships and celebrates the breadth of sexuality and queerness.

Urban Friendships and Community Youth Practice-Melvin Delgado 2016-11-03 There is no denying that friendship, however narrow or broad the definition, is dynamic and highly responsive to socio-cultural and environmental factors. Urban Youth Friendships and Community Practice highlights the greater importance of friendships in circumstances where youth have been marginalized and have limited access to instrumental resources that restrict geographical mobility or curtail their movement to limited public spaces (in which they are validated, and even liked or admired). Youth friendships are not limited to peer-networks; they can cross other social divides and involve adults of all ages. Indeed, community practice and asset assessment approaches are increasingly focusing on the relevance of strong peer relationships and networks as strengths upon which to build. Friendships, therefore, are a community asset and as such could be included as a key aspect of community asset assessments and interventions. Community organizations, schools, religious institutions, and other less-formal groups provide practitioners with ample opportunities to foster urban youth friendships. This book seeks to accomplish four goals: (1) provide a state of knowledge on the definition, role, and importance of friendships in general and specifically on urban youth of color (African-American, Asia and Latinos); (2) draw implications for community practice scholarship and practice; (3) illustrate how friendships can be a focus of a community capacity enhancement assets paradigm through the use of case illustrations; and (4) provide a series of recommendations for how urban friendships can be addressed in graduate level social work curriculum but with implications for other helping professions. Urban Youth Friendships and Community Practice is a must-have for community practitioners, whether their focus be social work, recreation, education, planning, or out-of-school programming.

Discourses and Representations of Friendship in Early Modern Europe, 1500-1700-Maritere López 2016-05-23 Interdisciplinary in scope, this collection examines the varied and complex ways in which early modern Europeans imagined, discussed and enacted friendship, a fundamentally elective relationship between individuals otherwise bound in prescribed familial, religious and political associations. The volume is carefully designed to reflect the complexity and multi-faceted nature of early modern friendship, and each chapter comprises a case study of specific contexts, narratives and/or lived friendships. Contributors include scholars of British, French, Italian and Spanish culture, offering literary, historical, religious, and political perspectives. *Discourses and Representations of Friendship in Early Modern Europe, 1500-1700* lays the groundwork for a taxonomy of the transformations of friendship discourse in Western Europe and its overlap with emergent views of the psyche and the body, as well as of the relationship of the self to others, classes, social institutions and the state.
